

PARKER TRAINING

For Instrumentation fitters, technicians and maintenance personnel

PHARMACEUTICAL

MEDICAL DEVICE

SEMICONDUCTOR

FOOD & BEVERAGE

POWER

LABORATORY

GENERAL INDUSTRY

SOLUTIONS FROM HANLEY CONTROLS (CLONMEL) LTD.

Enroll your Instrumentation fitters, technicians and maintenance personnel on the Parker SBEx training program to give them the hands-on training they need to help your organisation save time, reduce overheads and increase safety, both during and after installation.

How many potential fitting failures are there within your system?

Increasing understanding of SBT systems and components

Improving SBT systems safety

Enhancing SBT systems integrity

Reducing potential losses

Augmenting skills and confidence whilst working on SBT systems

Course can be conducted at your premises or at our offices in Clonmel

SBEx course content

- What are small bore tubing systems?
- Typical applications
- Tubing
- Tube connecting technologies
- Pipe connecting technologies
- Tube fitting installation
- Special connections
- Pipe fitting installation
- Tubing installation
- Inventory management
- Safety at work
- Feedback and appraisal

The goal of our training is that knowledge is implanted throughout the organisation so that all relevant personnel can learn the practical techniques involved with the selection and assembling of tube fittings, valves and pressure system component

All Successful candidates who complete this training will receive official Parker certification from Hanley Controls Clonmel Ltd.
